Abstract Template

<div align="center">

TITLE (MAXIMUM 20 WORDS)

Author name[1], Author name[2] (bold)

</div>

<div align="center">

[1]Author's affiliation (Department, Faculty) 12 point type, centered, italicized
[2]Author's affiliation (Department, Faculty) 12 point type, centered, italicized
[1]Author's email address: 12 point type, centered, italicized
[2]Author's email address: 12 point type, centered, italicized
[2]Author's email: Corresponding Author

</div>

Purpose*:* The Purpose part shall include a clear description of the study background, the specific purposes, questions addressed, and/or hypotheses tested (if any).

Method*:* The Method section must describe the study design (qualitative, quantitative, multi and/or mixed methods) and general procedures including characteristics and numbers of participants and or interviewee (if any) and data collection methods. If the study does not involve primary data collection, information should be provided on the methods used to summarize previously reported data (e.g., narrative or systematic review, meta-analysis).

Results: The Results section summarizes findings referred to the stated purposes of the article.

Conclusion*:* The Conclusions section shall state specifically the extent to which the stated purposes of the article have been met or/and the potential implications (theoretical and/or clinical) of the findings.

Recommendation*:* The recommendation shall give a solution to overcome problem identification stated above.

Keywords: 3-5 phrases or words separated by semicolon.
